Approved For Release 2001/03/02: CIA-RDP61S00137A000100140134-7

25 May 1956 Chief. Economic Research Area Chief. Industrial Division, ORR 25X1A9a from Acting Branch Chief, I/CI Reclassification of to Branch Chief, I/CI. 25X1A9a designation be changed 1. It is recommended that from Acting Branch Chief to Branch Chief, I/CI. entered 25X1/2 on duty with the Agency on 1948 with a rating of P-4. His 25X1A promotions came along regularly and he presently has a grade of GS-15. entered 25X1A9a He became Acting Branch Chief, I/CI on 12 September 1954 at the time the Branch was made part of the Industrial Division. 2. During the year and eight months that has been 25X1A9a Acting Chief of the Branch very substantial progress has been made in the study of consumer expenditures in the Bloc. Two major research studies are about ready for publication. The first, a study of consumption in Communist China is an extremely fine piece of work. The second, a study of consumption in the USSR is presently being typed for coordination with D/A prior to publication. The portions of this which I have seen are also of high quality. In addition the branch has completed a great deal of original research on consumer expenditures and the production of light industry in the European Satellites. To date original research has been completed on East Germany, Hungary and Rumania. This work was done as part of the NIS program. has maintained very high morale in his Branch and has the respect of the people working for him. He knows when close supervision is required and when to give an analyst full freedom. He has conscientiously developed his own understanding of the consumer problems in the Sino Soviet Bloc and has read widely in the field. has at least two other strengths which should be noted. The first is his editorial skill. The second is his keen interest in history. These coupled with his interest in his work, have made it possible for him to contribute in a great many ways to the development of the people in the Branch and to D/I as a whole.

25X1A9a

is a valued

5. In summary, there is no question in my mind but that this

recommendation is, if anything, overdue.

member of the top D/I team.
